- C#
- C++
- HTML
- JavaScript/TypeScript
- Java
- C
- CSS
- SQL

Tools

- Git
- Visual Studio
- JetBrains Tools
- Postman

Frameworks

- Vue.js
- Springboot
- Angular

Web Development

- REST API

Software Development Work Experience

OMICRON electronics

Software Developer Internship

Klaus, Vorarlberg

Aug. 2023–Sept. 2023

- Developed a C++ application from scratch to handle communication controls between the main software and a helper application implementing pipes. Optimized communication flow and enhanced user experience.
- Updated existing C# code to ensure compatibility with the newly implemented pipeline structure. Prioritized efficient resource allocation, leading to an improvement in software performance.
- Developed and implemented testing procedures for thorough cross-functional acceptance tests, contributing to ongoing quality assurance.

Soft Skills

- Problem-solving thinking
- Time management and organization
- Teamwork
- Creative thinking
- Communication skills
